SUMMARY

Coding is my way of life. Driven by an urge to learn the way things work, I utilize that knowledge along with industry standard design and coding guidelines to set the course of actions to deal with real life challanges.

PROJECTS

Vinndo   (Swift, Xcode, Cocoa Touch, Sketch, 3rd Party API's ...)
Designed, built and deployed a rapid, on-demand automotive parts finding application in collaboration with Vinndo iOS development team.

MotoMez   (Swift, Xcode, Cocoapods, Sketch, Alamofire, SwiftyJSON, Rest API's ...)
Developed a fully functioning warehouse inventory app which is used for back and forth inhouse shipment tracking and capable to scan product barcode as well.

MemeMe

With MemeMe you can create multiple persistent memes using your photos from your iPhone media library or take one from your camera directly. MemeMe allows you to take a picture, and add a meme text at the top and bottom to create your own a meme. The user will be able to share the photo on Facebook, Twitter and also by SMS.
